«LES BUGUENVÍL-LIES»

Inspired by summers spent among lush gardens and historic Mediterranean homes, «**Les Buguenvíllies**» revisits the spirit of those summer residences that, across generations, brought together influences from the Caribbean, the Americas and distant lands with the light and sensibility of the Mediterranean.

SUMMER 2027
COLLECTION

Flowers in multiple scales,
landscapes transformed into
texture, stripes, checks and
artisanal jacquards come
together in a collection rich
in colour, contrast and
character.

A dialogue between nature,
craftsmanship and a
travelling spirit that shapes a
feminine, free and
contemporary wardrobe.
